

Metal Quick Coupling Valve (QCV)

The Quick Coupling Valve (QCV) is a versatile and robust solution designed to provide quick and easy water access across various irrigation and landscaping projects & available in multiple configurations with durable construction options such as aluminum, brass and red brass. The integrated "Spiral Turn and Lock" key mechanism allows for secure, easy handling, making it ideal for landscape applications.

HIGHLIGHTS

- **Threaded Inlet Options:** Available in 3/4", 1", 1.25", and 1.5" BSP/NPT female threaded connections, with optional male threaded inlets.
- **Durable Construction:** Made from single and double-piece aluminum or brass/red brass for high resistance to corrosion and wear.
- **Corrosion-Resistant Design:** Featuring a stainless steel spring that prevents leakage, ensuring long-lasting performance.
- **Spiral Turn and Lock Key:** Includes an inbuilt handle design for excellent gripping and ease of use during operation.
- **Enhanced Durability:** Available with thermoplastic covers (black or yellow) and optional locking covers for additional protection and long-term durability.

APPLICATIONS

- **Irrigation Systems:** Designed for quick installation of Rainguns on riser stands, allowing rapid removal and re-installation on other risers as needed.
- **Landscaping Projects:** Ideal for projects requiring quick water access, particularly in public parks, gardens, and large-scale green areas.
- **Commercial & Agricultural Use:** A high-value solution for both landscaping and agricultural projects, ensuring fast water connection and easy maintenance in large fields and estates.

Quick Coupling Valve (Brass / Bronze)

Flow Rate Range	
3/4" QCV:	2.0 to 5.0 m ³ /h
1" QCV:	4 - 7, 4 - 10 & 6 - 16 m ³ /h
1.5" QCV :	10 - 28 m ³ /h
Operating Pressure Range	
0 to 10 bar	

Models	Height (cm)	
	QCV	QCV with Key
70B/BRL	10	19.2
70BR/70BRL	11.5	21.1
71B/BL	14	24
71BR/71BRL	14	31.2
71BT	14	25.8
72B	15	31
